Stacie – as per our voicemail messages – here’s the hopefully final draft of the letter we plan to send to Chemours. This was produced in conjunction with Region 5 and has been reviewed by OGC, OGWDW, the public affairs people at HQ and here. We hope to get this out soon, maybe by the end of this week.

Let me know if you have any questions.

Rick

Good morning all, attached is the most recent draft letter to Chemours. This letter reflects ORCA’s most recent comments. Unless there are no final edits required we will be placing this letter into concurrence as soon as possible.

Please note, however, that we have been asked to hold off on sending the letter until the preparation of desk statements, Q&As, etc., has been completed. Hopefully, we will be advised that we may send the letter to Chemours very shortly so that we can proceed with sampling.

Thank you all for your help in moving this forward.

Andy
